ANANTHI P

Chennai, India | +91 9363411438 | ananthip490@gmail.com | github.com/Ananthiproject | linkedin.com/in/ananthi-p-60774a2a8

PROFESSIONAL SUMMARY

Python Full Stack Developer with strong expertise in building scalable web applications, REST APIs, and AI-powered solutions. Proficient in modern frameworks and libraries including Django, React.js, and machine learning tools. Experienced in database design, version control, and agile development practices. Seeking challenging opportunities to develop robust, user-centric applications.

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL

Backend: Django, Django REST Framework, Flask, REST APIs

Frontend: React.js, HTML, CSS, JavaScript, Axios, React Router

Database: MySQL, SQL Queries, Database Design, Joins

Tools & Libraries: Git, GitHub, VS Code, Postman, Pandas, NumPy, Scikit-learn, Matplotlib

Core Competencies: Full-Stack Development, RESTful API Design, OOP, Debugging, Problem Solving, AI/ML Fundamentals

PROFESSIONAL EXPERIENCE

Python Full Stack Developer Intern

Bdreams Global Solutions | Apr 2026 – Present

- Developed full-stack web applications using Python, Django, HTML, CSS, JavaScript, and SQL
- Built and integrated REST APIs with relational database management systems
- Implemented version control using Git and participated in application performance optimization

AI Intern

Here and Now AI | May 2025 – Jun 2025

- Worked on AI-powered applications using modern AI tools and frameworks
- Developed practical solutions for real-world business problems
- Collaborated with technical teams on AI projects and implementation

Data Science Intern

Gradtwin | Dec 2025 – Mar 2026

- Performed data preprocessing and analysis using Pandas and NumPy
- Built and trained machine learning models using Scikit-learn
- Created data visualizations using Matplotlib to communicate insights effectively

PROJECTS

AI Career Placement Platform

Full-stack career portal with role-based access (Student/Recruiter/Admin). Implemented JWT authentication, REST APIs, CRUD operations, job applications, resume management, and interview tracking using React.js, Django, MySQL, Postman, and GitHub.

AgriPredict — ML Crop Yield Prediction System

Machine learning system for crop yield prediction built with Python, Flask, and SQL. Integrated Flask backend with automated report generation and data visualizations to enhance prediction accuracy and user experience.

EDUCATION

Master of Computer Applications (MCA)

SRM Institute of Science and Technology | Jul 2024 – May 2026 | CGPA: 9.26

Bachelor of Computer Applications (BCA)

Govindammal Aditanar College for Women | Jun 2021 – May 2024 | CGPA: 7.52
